NEHRU GRAM BHARATI (DEEMED TO BE UNIVERSITY)

Bries Student Survey Report & Observations :

Due to prevalent COVID-19 Pandemic and non-availibility of students in the campus, the no. of feedbacks received is relatively low.

The student satisfaction survey was carried out and based on the feedback received; recommendations were made by the IQAC to the departments for compliance:

Recommendation of IQAC was as under:

Towards Faculty, Teaching, Learning & Evaluation

1. Increase the use of modern teaching aids including the use of PowerPoint based lectures, using web-based resources, referring to e-content in form of research papers and articles.
2. delegate assignments/projects to the students, involving increased use of online resources
3. ensure active participation of maximum number of students in the teaching - learning process
4. increase the use of reference books in the preparation of lectures
5. Increase internet bandwidth to ensure enhanced upload and download speed.
6. Increase the involvement of visiting and adjunct faculty in the teaching activities to widen the horizon of teaching - learning process and to simultaneously increase the exposure of students

Towards Facilities and Services provided for creating conducive atmosphere for teaching and learning

1. increase the number of reference and text books in the Central Library, title as well as volume
2. increase the capacity of reading room and common room
3. increase the availability of online journals
4. increase the internet bandwidth for ease of accessibility across campus
5. increase campus placements particularly for conventional courses
6. increase the facility for differently abled students (if any) across campus

Towards Curriculum

1. Objective of the course should be clearly stated with no ambiguity
2. Increase applied and practical component associated with the courses
3. Increase the number of electives under CBCS.

Action Taken Report: Based on Student Satisfaction Survey:

Towards Faculty, Teaching, Learning & Evaluation

1. There has been a considerable increase in the use of modern teaching aids across faculties, through Multimedia Projectors, You-tube Videos, MOOCs, SWAYAM,etc, E-Resources etc
2. Students are being delegated class assignments/individual assignments involving the use of online resources for completion and using multimedia aids for presentation of project report.

3. Faculty members have encouraged participation of entire class in the teaching - learning process, seeking feedback from non-participating students, thus bringing non-participating students in mainstream.
4. In addition to the use of textbooks, faculty members are frequently using reference books during the conduct of classes, assignments and projects are also being delegated on the basis of reference books.
5. Internet band-width has been increased substantially from 6 mbps to 20 mbps there-by offering ease of access of internet and accompanying online resources for teaching and research purposes.
6. Services of visiting faculty members have increased in most of the departments for taking day-long lectures in specialised fields. Experts from academia, administration and society have visited the campus, delivered lectures, and interacted with students through the Thought Spectrum Platforms, there-by widening the exposure of the students as well as faculty members.

Towards Facilities and Services provided for creating conducive atmosphere for teaching and learning

1. The number of reference books and text books have also been increased substantially with the addition of 2500 + books in the library
2. Central Library facility is nearing completion completions, which will be having increased number of reading rooms, with increased capacity. Departments have also increased the capacity of common rooms.
3. Open access online journals have been subscribed to enable the students to fulfil their academic needs.
4. Owing to the pandemic, followed by the dramatic slow-down in the economy of the country, placements have not been up to the expectations of the students, and the same is expected to improve as the economy grows.
5. To cater to the needs of differently abled Divyanjans, students, a state of the art Divyang Bhawan is being constructed, offering all facilities desired by differently abled students.

Towards Curriculum

1. Objectives of the course have been clearly stated in the syllabus, with no scope of ambiguity
2. Practical oriented subjects have been introduced as per the UGC guidelines.
3. The number of options available to the students have been increased offering greater number of cources as electives.
